About Myself And My Brief Thoughts

I was born on the 24Th of may in 2000 in the Bagot region of Khorezm province. In the first period of the University, since 2019, I have entered almost all areas of IT and the most attractive one for me was mobile. I started to learn Android(java) in 2020. In 2021, I won unicorn grand of PDP academy and now I can write apps not only on Android but also on ios with Flutter. I think that there are no complex things. In my opinion, everything is consist of typical things.
